

ASX Announcement**Connexion Board Changes**

29 July 2016, Melbourne: **Connexion Media Limited** (ASX:CXZ) ("Connexion") announces that Ashley Kelly has decided to step down from his role as Executive Director to pursue other interests.

Connexion thanks Mr Kelly for his services and wishes him all the best with his future endeavours.

Commenting on the Board changes George Parthimos, CEO of Connexion Media, commented:

"The Board wishes to thank Ashley for his contribution to Connexion since its reinstatement on the ASX in August 2014. As one of Connexion's founding directors, Ashley brought extensive corporate governance and financial markets experience during the Company's critical establishment and early growth periods. We wish him all the best for the future."

About Connexion Media

Connexion Media specialises in developing and commercialising smart car software apps and services for internet-connected vehicles and mobile devices. The Company is headquartered in Melbourne, Australia and currently has offices in Cambridge, Detroit, Kochi and Seattle.

Connexion has two core products in commercialisation, Flex and miRoamer. Flex is a highly sophisticated smart car solution that allows car fleet managers to manage an entire fleet of vehicles from a mobile phone or computer and deliver cost efficiencies through reduced maintenance costs. Flex is able to track a range of real time and historical data including vehicle locations, distance travelled, fuel consumption, battery life, engine performance and absolute and average speeds travelled. It is also able to monitor driver behaviour and instantly send notifications and alarms to vehicle owners and fleet managers.

miRoamer is a next generation internet radio product that allows users to pick up radio stations from broad geographies, including international stations. miRoamer has become the world leader in internet radio technology, delivering a superior understanding of the technical, content and marketing demands of radio manufacturers and car makers alike.
